

VSB Group in France Once Again Recognised as a Great Place To Work®

Nimes, 24 October 2024 – VSB, one of France’s leading developers of wind energy and photovoltaics, has once again been recognised as a Great Place To Work®. VSB locations in Germany, Poland, and Finland have also been awarded this prestigious certification.

VSB, headquartered in Nimes with additional offices in Autechoux, Paris, Reims, Rennes and Toulouse has been certified again with the coveted Great Place To Work® award. This globally recognised seal of approval for employer attractiveness is based on a representative employee survey regarding workplace culture. Other important factors such as leadership quality, development opportunities, trust, and team spirit are also considered in the assessment. Every year, more than 10,000 companies across 60 countries apply for this award.

“I am proud that the vast majority of our employees in France consider VSB Group to be an excellent workplace. This extremely positive feedback is echoed across our international locations. It is the result of a committed team effort and a company culture that values and respects its employees,” said **Felix Grolman, CEO of the VSB Group**.

“VSB is literally a 'Great Place to Work', characterised by a strong connection to the employees and the company” affirmed **Mael Lagarde, Managing Director**. “The repeated certification confirms that we are focusing on the right values. At the same time, it motivates us to continue doing everything possible to ensure VSB offers the best career opportunities in a forward-looking work environment and to use employee feedback to keep improving,” he added.

For over 25 years, VSB has been committed to climate protection throughout France and Europe. Today, more than 500 employees work across six countries in the fields of wind energy, photovoltaics, e-mobility, and battery storage. The renewable energy industry offers secure jobs that make a meaningful contribution to the success of the energy transition and provide opportunities for individual responsibility and growth.

About VSB Group

VSB, headquartered in Germany (Dresden), is one of Europe’s leading vertically integrated developers in the field of renewable energy. Its core business is project development of onshore wind and photovoltaic parks, battery storage solutions, their operational management as well as the operation of its own assets as a growing independent power producer. VSB operates in six European countries and has a pipeline of more than 16 GW. Since 1996, VSB has commissioned more than 750 wind energy and photovoltaic plants with a combined installed capacity of more than 1.7 GW. VSB also provides services for a portfolio of more than 2 GW. With its affiliated companies, the Group employs over 500 people. Further information:
