

VSB Group celebrates 15 years in Poland by inaugurating 42.6 MW Baranów-Rychtal wind farm

Dresden/Wrocław, 7 September 2023 – VSB Group celebrates 15 years of successful operations in Poland and the official commissioning of its latest project, the 42.6 MW Baranów-Rychtal wind farm.

With 15 years at the forefront of renewable energy in Poland, VSB Energie Odnawialne Polska, the Polish subsidiary of VSB Group, underlines its contribution to a sustainable European energy landscape. The official opening of the Baranów-Rychtal wind farm is part of the celebrations. With an installed capacity of 42.6 megawatts (MW), the site's eleven wind turbines generate enough green electricity to power around 36,000 homes each year.

Dr Felix Grolman, CEO of VSB Group: "For 15 years, we have been committed to helping Poland make the transition from fossil fuels to sustainable, clean and secure energy. The successful completion of the Baranów-Rychtal wind farm marks another milestone in our corporate history."

Hubert Kowalski, CEO of VSB Energie Odnawialne Polska, adds: "For us, the past 15 years have been a journey of commitment, of learning and of growth. With every project we deliver, we reaffirm our commitment to a more sustainable future, and the Baranów-Rychtal wind farm is an excellent example of this. VSB's continued success in the Polish market is a testament to our strength, our vision and the commitment of the entire team."

VSB Energie Odnawialne Polska is positioning itself at the forefront of the energy transition through continuous expansion and a focus on renewable energy. With its impressive portfolio of projects, the company looks forward with confidence to a sustainable energy future. Among other projects, VSB is currently implementing the Racibórz wind farm with a planned output of 41.6 MW, which is already in the active implementation phase and is scheduled to be commissioned at the end of 2024.

About VSB Group

VSB, headquartered in Dresden (Germany), is one of Europe's leading vertically integrated developers in the field of renewable energies. Its core business is project development of onshore wind and photovoltaic parks, their operational management as well as the operation of its own assets as a growing independent power producer. VSB operates in nine European countries and has a pipeline of more than 15 GW. Since 1996, VSB has commissioned more than 700 wind energy and photovoltaic plants with a combined installed capacity of approximately 1.3 GW. VSB also provides services for around 3.2 GW worth of installed plants. With its affiliated companies, the Group employs over 500 people. Further information: www.vsb.energy
