

VSB Group once again recognised as a top employer by kununu

Dresden, 19 April 2024 – The job rating platform kununu has once again awarded VSB its coveted Top Company status for 2024. VSB Group, a renewable energy project developer, is among the top 5 per cent of employers in Germany, Austria and Switzerland represented on the site.

The Top Company seal is awarded annually to companies with the highest ratings on kununu. The award is based on the independent ratings of employees on the platform. This means that VSB, which employs around 350 people in Germany, continues to be one of the most popular employers in the DACH region in 2024.

“Authentic reviews on career sites have a significant impact on whether people decide to apply for a job. In addition to the attractiveness of the job itself and the benefits we can offer as an employer, kununu is an important way for us to show how our people value us. We are particularly pleased with the high recommendation rate of 95 per cent,” says **Dr Felix Grolman, CEO of VSB Group**.

“Winning the Top Company award once again confirms our commitment to a modern corporate culture where we constantly scrutinise ourselves in order to attract and develop the best talent for our group of companies in the long term. To achieve this, we create a working environment characterised by creative freedom, empowerment and high levels of job satisfaction,” adds **André Spalke, Global Head of HR at VSB Group**.

VSB has been committed to climate protection throughout Germany and Europe for over 25 years. Today, more than 500 employees in nine countries work in the fields of wind energy, photovoltaics, e-mobility and battery storage. The renewable energy sector, and therefore VSB, offers future-proof jobs that are making a meaningful contribution to the success of the energy transition and offer plenty of scope for individuals to leave their mark.

Potential applicants can visit the VSB website to browse a number of vacancies at our headquarters in Dresden and our regional offices in Potsdam, Osnabrück, Kassel, Erfurt and Regensburg, as well as internationally:

About VSB Group

VSB, headquartered in Dresden (Germany), is one of Europe's leading vertically integrated developers in the field of renewable energies. Its core business is project development of onshore wind and photovoltaic parks, their operational management as well as the operation of its own assets as a growing independent power producer. VSB operates in nine European countries and has a pipeline of more than 15 GW. Since 1996, VSB has commissioned more than 700 wind energy and photovoltaic plants with a combined installed capacity of approximately 1.3 GW. VSB also provides services for around 3.2 GW worth of installed plants. With its affiliated companies, the Group employs over 500 people. www.vsb.energy
