

# WSB now is VSB

International wind park developer presents new brand identity

**Dresden, September 27<sup>th</sup>, 2016 –The WSB Neue Energien Group stands for two decades of professional planning and developing of wind energy and photovoltaic projects. Just in time for the international trade fair WindEnergy in Hamburg the company now presents their new corporate identity. The WSB Group will become the VSB Group.**

In the new company name, VSB stands for the Latin terms for wind, sun and bio-energy: **V**entus, **S**ol, **E**nergia **B**iologica. They map the group's field of business and put VSB's passionate dedication since 1996 in a nutshell: renewable energies. VSB will meet the high quality demands involved also in the future. "We are facing the global challenges with a strong international team and create individual solutions for our customers by regional presence", says Marko Lieske, Managing Director of VSB Holding GmbH. VSB develops sustainable energy concepts at currently ten company locations and thus significantly contributes to climate protection and the energy transition on site.

The entire range of services is now presented with a new online presence at [www.vsb.energy](http://www.vsb.energy). Please feel free to convince yourself from September 27<sup>th</sup> to 30<sup>th</sup> 2016 at the WindEnergy Hamburg in exhibition hall A1, booth 230.

## The VSB Group

VSB, having their headquarters in Dresden, is among the leading turnkey suppliers in the field of the renewable energies. The core business is the international project development of wind and photovoltaic parks with a comprehensive service portfolio. Since 1996 VSB has erected more than 400 wind energy and photovoltaic plants with approx. 760 megawatt of installed capacity and an investment volume of about 1.2 billion Euros. The corporate group and the affiliated companies employ 200 people.
